

### NS-206F Series/NSM-206F Series

4-port 10/100 Mbps Ethernet with dual fiber port Switch

NS-206FC/FCS

NS-206FT

NSM-206FC/FCS

For NS-206F series

#### Features >>>>

- Provides 2 x 100-FX fiber port plus 4 x Ethernet ports
- Each port supports both 10/100 Mbps speed auto negotiation
- Full duplex IEEE 802.3x and half duplex backpressure flow control Supports operating temperatures from 0 ~ +70 °C
- Automatic MDI/MDI-X crossover for plug-and-play
- Store-and-forward architecture

#### Introduction

The NS-206F/NSM-206F is a 4-port unmanaged Ethernet with dual fiber port switch. Using fiber optics, you can prevent noise from interfering with your system and supports high-speed (100 Mbps) and high-distance (up to 15 km) ransmissions.

The NS-206F/NSM-206F provides a wide 10 to 30 Vpc power range to fit all the common power standards found in industrial automation, without external power converters. The wide power input lowers installation and maintenance costs.

### **Specifications**

| Models                                    |                      | NS-206F Series  | NSM-206F Series                   |

## Fiber Daisy Chain Configuration

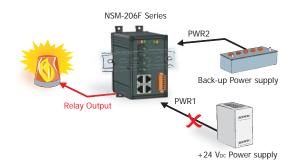

#### Dimensions (Units: mm)

# - Redundant Power Input for NSM-206F series —

Both power inputs can be connected simultaneously to live DC power sources. If one power source fails, the other live source acts as a backup, and automatically supplies all of NSM-206F series power needs.

## - Ordering Information

| '             |   |
