

R15ITWS-MHC3

15" Intel® Core™ i5-1135G7 M Series HMI Panel PC

KEY FEATURES

- Intel® 11th Generation Tiger Lake UP3 Core™ i5 CPU
- Signature true flat display screen with edge-to-edge design
- Aluminum, anti-corrosion treated housing
- Superior sealing with front IP65 protection against dust and water
- Projected Capacitive Multi-Touch Screen (PCAP)
- Fanless Design
- Support wide range 9-29 V DC input
- One Quick & Easy Removable 2.5" SSD Bay Slot

OVERVIEW

Modular Design

The M-Series is designed with flexible modularity in mind. The HMI is made of two interchangeable parts, the Box PC and the Display. By having a simple board to board a docking connector that connects these two modules, users can easily change the display size or box pc depending on their needs.

P-Cap Multi-Touch Screen (Durable & User-Friendly)

These technologies support simultaneous touch, which is very user-friendly. Withal touch screen installed behind glass cover or vandal resistant glass is resistant to scratches, damages, and cleaning fluids.

Service-Friendly Access

Upgrade the memory, change the hard disk, or access the PCIe Module. The M-Series HMI contains an easy access service window for a versatile and cost-effective solution for always changing industrial needs.

Front IP65 (Outer Dust and Water Splash Resistant)

Winmate M-Series HMI support IP65 sealing on the front side. Devices are protected from possible damages caused by direct snow, rain, dust, dirt, and grime. This feature makes it suitable for outdoor kiosks applications.

True Flat (Easy-to-clean)

Winmate M-Series HMI's true flat surface is more than just a stylish and elegant appearance. It is easy to maintain and clean. No more clogged dust on edges.
